

PSK 107 – Philosophy of Science

Homework 4

Deadline: December, 30th 2016

Your mission is to prepare 3 Final questions covering the subjects we have seen in the 7th, 8th, 9th, 10th and 11th weeks.

- Try to be creative.
- The answers should not be obvious, yet they should not take too much time to answer.
- They don't have to be essay questions, so you can prepare multiple choice questions; BUT if you do so, make sure to ask them in an indirect (& again creative) way.

In short, your questions should be tricky ;)

P.S.: Do NOT prepare very easy & descriptive questions, such as “What is this and that?”. If you do so, you will lose points!
