

14.11.2016

PSK393
Assignment 2

Deadline: 24.11.2016

1st Step: Pick your favorite kind of music (e.g. jazz)

2nd Step: Pick either cognitive or clinical point of view that study psychology & music (e.g. clinical)

3rd Step: Make a literature review to find out what the psychological point of view you picked mostly found out about how the music kind you picked affect humans (e.g. what does clinical psychology's findings on how jazz music affect us; you might use keywords such as clinical psychology, jazz, treatment, music)

4th step: Write down a report summarizing what you have found on the issue, and then stating what kind of studies 'you' would like to perform on this subject.

The report should be at least 3, at most 6 pages with Times New Roman, 12 punto & 1,5 space. You do not have to prepare a cover page, however please put your name, surname & student number on the first page.

To use citations & references correctly please download **AKADEMİK YAZIM KURALLARI KİTAPÇIĞI** from http://psk.baskent.edu.tr/docs/AYKK_04.pdf!
